### ATTENTION MEMBERS AND GUESTS!

Range Cleanup / Work Party Sunday Aug. 17th, 2014  
8.00 am. until Done. Lunch provided for all workers. Prizes  
and no cost raffle. Bring rakes, square shovels & weed wips  
if possible. New members can get credit for time worked  
toward volunteer service hours. Help keep EF&GA safe & clean.

### The President's Corner!

This was previously printed in the newsletter some time ago, however, I feel it is worthy of a reprint.

#### FYI:

*I was asked a question by a member that got me thinking maybe he wasn't the only one who didn't know. The question was, basically, "how does a member access the Board of Directors"? He was trying to find out how a member could give input on ideas, suggestions, etc. He thought that maybe some {possibly most} general members are somehow intimidated by BOD members and are afraid to approach them. So, let me try to clarify.*

*First and foremost is to attend BOD meetings on the first Thursday of each month. This is where the business of this association is conducted. If you have an idea or suggestion or just a concern to present to the BOD, call, email or write a note to the Secretary asking to be put on the meeting agenda.*

*Secondly, attend the general member meeting(s) on the second Thursday of each month. During the section known as new business you may present your thoughts to the President and/or Secretary, and they will then put that on the agenda for the next BOD meeting. {The business of the Association is not conducted at general meetings with the exception of elections and general member voting issues, ie: by laws, etc.}*

*Third and, I think, extremely important is that the Board of Directors are just folks, like you, and elected to serve the majority of the membership. Please do not feel they are unapproachable.*

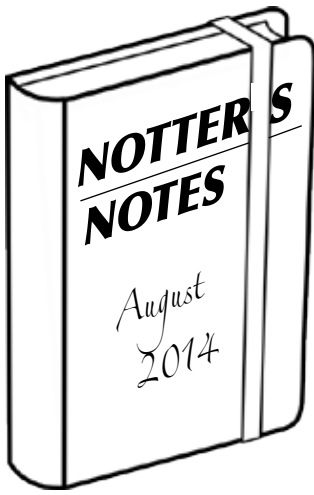

*I hope this helps.*

**Neil**

Some of you already know this but for those who don't, we have installed video cameras in various locations around the property. These cameras are for safety and security and may at times be reviewed by authorized staff personnel.

Many thanks to Kurt Nelson for his service to this association. You have taught me much.

**PLAY SAFE, STAY SAFE**

By: Tim Geiser – CRSO • [www.crsoTim@aol.com](mailto:www.crsoTim@aol.com)

**F**ire safety. Not an unusual word combination for a firing range, but today I want to take the phrase apart and look at the words separately. Fire, as I choose to use it here refers to the rather nasty way that things can get burned up under the wrong conditions. Given that I am also on the Deer Springs Fire Board, I will admit to being particularly sensitive to things that can happen when certain fire conditions prevail. I am referring to high wind, red flag Santa Anas. These dry winds can pick up a spark and in an instant turn it into a raging inferno. The range itself is actually a fairly safe to be during a wildfire, but a fire starting there could go in virtually any direction with devastating results. We need to go to great lengths to avoid anything of the sort from happening.

A fire extinguisher is located at each range, but will be of limited use in the event of a brush fire. If you are on any range and see any sort of grass fire starting, get water on it as quickly as possible. A water hose will be located at each range. USE IT! Then report it if necessary to the proper authorities.

**Actually, there is a better solution.** Listen to the weather reports before heading up to the range. If high wind Santa Ana conditions are predicted, you might just want to change your plans and take your wife to a movie or lunch instead. The Board summarily rejected the idea of shutting down the range under those conditions. Their decision leaves me with only the option of appealing to the common sense of the membership to do the right thing. **If a dangerous situation can happen, you may be certain that it is only a matter of time until it does.** Good sense and safety demands that we minimize any risk to the greatest extent possible.

**Lost and Found.** A rifle scope and container of long cleaning rods have been left at the range and turned in. Give me a call with the correct description and you may claim them.

**Last month** I mentioned that Director Cross and I were attempting to reconcile some of the range target rules. At best I find that there is a bit of confusion over how and when various rules apply. We decided to reduce the rules to a graphic representation, which would eliminate or at least minimize any confusion. It turns out that we underestimated the difficulty factor by a factor of... let us say a lot! None the less we will get it done! In the meantime folks, please don't argue with the duty RSO. His/her interpretation will still prevail for the time being.

**Here is a short quiz.** Surrounding the EF&GA Range is a series of man-gates. Each gate has a combination lock that can be opened in an emergency by any current member. Do you know what that combination is?.....time's up. A silver sticker is issued each year to each member with the four digit combination number. Keep it on your badge (you should wear it at all times as I am sure you remember). That combination number will allow you access you to the gates, the first aid boxes and the club house. Pat yourself on the back if you passed.
