Kurt & To the Point

The Holidays are upon us, signaling the end of a tumultuous year. We hear the usual musings that come this time of year, the thoughts that remind us of family, peace, good will towards men, and so on. (Let's not forget the ladies and kids!) When you hear these things, and are feeling all warm and fuzzy inside, remember your family at EF&GA too. We really are a good bunch. It's easy sometimes to disagree and argue, just like we do with our Parents, Kids, and Siblings. Don't lose sight of the fact that we are Brethren. I'm glad to know you all.

The transition to the new ID cards marches on. Our Clerk, Mrs. Juli Everett, has been putting in long hours on this project, as has Board member Norm Porst. We are still working out the kinks and bugs. For now, if your new proximity card fails to open the gate, you can enter the gate code on the bottom key pad just like the old days.

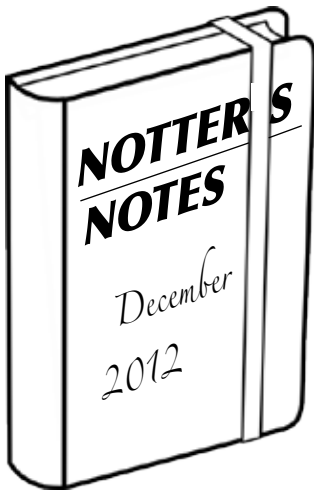

Let's cover AR type rifles again. Please educate yourself on the State and Federal laws that apply. Please adhere to those laws on our range. If you are building your own, and are unsure, (Like the guy who had parts left over after the build), Get some help before bringing an unsafe firearm to our range. We do have members who are law enforcement officers. One such fellow saw something he didn't like, and wanted to make a really big deal out of it. It just happened that the gun and magazine in question was owned by a member who had all the proper paper work. Do you? Please set an example for others by knowing the law, and following it.

The new Trap Ramada is finished. Many thanks to past President, Dave Burton for heading the project. We've got a nice building that is a big improvement from the old tin building. Come admire it while you sign up for a round of trap.

I hope you will come to our December meeting. The ladies make sure that we all enjoy plenty of goodies and coffee. The raffle is always bigger and better for our December Meeting too. Come and celebrate the holidays with us.

Happy holidays!

-Kurt

VOLUNTEER WORK OPPORTUNITIES FOR NEW MEMBERS

EF&GA is planning a series of range improvement projects that have been requested by the members. This is only the beginning of what is hoped to be many significant improvements to our facility. We are organizing committees (and looking for committee leaders) to start these projects. Here are our ideas, so far:

- Recover and refurbish the older shooting benches on the 100-yard range.
- Fabricate and install (locking) expanded metal doors on the wood storage cage. Install a roof over the stored wood, if possible.
- Build or rebuild the target frame storage kiosks on the pistol and 150-yard ranges. (The kiosk on the 150-yd range is too short to accommodate the taller frames.)

- Rebuild the target butt at the 100-yard distance on the 100-yard range. This butt is below grade and floods during the winter months. As a result, it is beginning to fall apart.
- Plan and build a privacy fence around our "junk yard", which is adjacent to the north side of the big storage building.

Note that this is by no means an all-inclusive list. The association is constantly looking for ways to improve itself and encourages ideas and suggestions. There is no doubt that other projects will be undertaken as ideas arise. If you see something that interests you, please contact Membership Committee Chair Breen Emery at dbemery@cox.net, or a board member.

ANOTHER SUCCESSFUL JUNIOR RIFLE SHOOT

Everyone had a great time. The Coaches cannot be thanked enough for the dedication of their time and efforts without whom this program would not be possible. One of the greatest joys of Coaches is seeing the eyes light up on a young new shooter as they begin to understand the concepts we are trying to teach them and they start to accurately hit the target they are aiming at.

RANGEMASTER SOUND OFF

By: Thomas Kendall – CRSO • www.efgarso.org

Halloween is over and with that, the Holiday Season is underway. Thanksgiving is rapidly approaching, with Hanukkah, Christmas, Kwanzaa and New Years' not far behind. Winter begins December 21. Where did 2012 go?

Daylight Savings Time ended last month and the sun sets much earlier. A reminder; the range closes at "local" sunset. Local sunset is when the sun is no longer visible or would no longer be visible when clouds are in the way.

Okay, here we go again. "Targets and Their Placement", a copy of the club policies/rules is posted on the back wall of each range kiosk. There are two items I would like to discuss here:

1) No silhouette targets allowed on the short distance pistol range. Silhouette targets have the capacity to allow bullets to skip and not impact the backstop. The large target area, the entire 24" x 24" target backing becomes a bullet stick area. A great deal of time was put into establishing the short range section. A large portion of that time was spent in determining the target area size. That target size was/is optimized to where bullets shot at the top or at the bottom of the target backing, will impact the backstop; regardless of shooter height.

Please stay within the stated rule, "Target must be 10 inches square or round, maximum (10 inch maximum envelope size for more than one target) and centered on the 24 inch by 24 inch target backing cardboard. The target backing must be at the top of the target frame".

2. Zombie targets are allowed (except on the short pistol range). Our target rule states "No political figures or likeness of any person living or dead. Paper targets only". If someone has a friend or relative that is or resembles a Zombie, I am truly sorry; but we can shoot 'em.

As some of you have noted, the last bay on the 150 yard range has been closed via "caution tape". This was done to restrict the ability of bullets striking the fence line and oak trees. The backstop berm will be extended in the near future and when complete, we will reopen the last shooting bay. Your patience is appreciated.

Range Safety Tip of the Month. When going down range during a cease fire, it might be a good idea to remove or partially remove your hearing protection. This will allow for commands to be heard if an emergency situation should come to exist. Also, it will allow you to hear a rattle snake if one is in the area. (Thanks to Eric Jamois for the monthly safety tip).
