ROSE GARDEN WINNERS FOR NOVEMBER 2103

Congratulations to Carolin Schwab and Tony Pendzich for winning the knives for November, keeping alive the tradition of Mom's Creek "Knives in Member's Lives". The five most valued and hard working range beautification members awards went to Roger Fannin, Ed Landreau, Tony Sportelli, Jeff Blair and Tony Pendzich. A big thank you to everyone that helps. You all have made a big difference in the way our range

is perceived by others. Your roses have given many "much happiness and joy". This adds up to a better image of the shooting sports for us all. And last but not least thanks to Jeff & Lisa of Gunther Guns (760-444-1100) in Carlsbad for your support.

RANGEMASTER SOUND OFF

By: Tim Geiser – CRSO • www.crsotim@aol.com

As the Chief Range Safety Officer for our association I have to step back every once in awhile to consider what, exactly, does “safety” mean? Sure, we all know about keeping your finger off the trigger until you are ready to fire and always keep the muzzle pointed in a safe direction. Kids need to be supervised and don’t shoot at animals (human or otherwise). We all need to review these basic rules periodically.

Having said this, there is another aspect of safety that we all need to think about routinely and that is anticipating that which could go wrong even when all the basic safety rules have been complied with. For example, recently a member was observing a shooting match and was standing well behind the firing line. A piece of metal hit him in the lip and created a serious gash. An investigation uncovered no safety violation, but it happened. The main lesson here was that even as an observer he was wearing safety glasses. At least he was protected if the piece of metal had been a few inches higher. **Always** make certain that your guests are wearing safety glasses even if they are only setting behind the firing line. **Don’t take any chances!**

Another incident happened when a member was firing his flintlock rifle from the bench. A spark from the rifle somehow reached his powder flask lying on the table. As you might imagine sparks and black powder can be an explosive combination when they come in contact at the wrong time. Again, an investigation did not uncover any safety violations, but it happened. Most muzzle loaders know better than to load from the flask, that did not happen in this instance, the best safety lesson learned here is to assume that something can always go wrong and act accordingly.

We have provided first aid boxes at each range and at various places throughout the range. I am sorry to report that some members appear to have used supplies in the boxes to resupply their own first aid kits. This is an egregious affront to the safety of every other member of our association. To rectify the situation somewhat, I have decided to provide a first aid kit for the duty RSOs. The kits will be checked in and out of a duty locker located in the meeting hall. Almost all of our RSOs have had some basic first aid training and I certainly hope that it will provide a better service to our membership.

An AED (an automatic defibrillator) has been installed inside the meeting hall near the kitchen window. Most of the RSOs have received some training on using the device. It is relatively easy to use and all members should be aware that it is available for emergencies. The AED is just one more way for us to provide our membership with the safest possible environment.

On another note, if any RSOs have not received their name badges, please let me know ASAP. I will try to have them ready by the January general meeting.

Last but not least, remember that steel bullets are not permitted on the EF&GA range. Cheap ammo, has begun to show up at various retail outlets. If the ammo is attracted to a magnet the duty RSO will ask you to remove it from the range. Cheap yes, but it still presents an unacceptable fire hazard.
