The Presidents' Corner

Hi All

I hope everyone got through our "cold spell" unscathed.

Just a couple of reminders:

When the range is "COLD", there is **NO HANDLING OF ANY FIREARMS OR EQUIPMENT OF ANY KIND** (this includes unloading of vehicles). The only exception is target frames being brought down range for setting.

The range closure is at **LOCAL SUNSET, NOT PRINTED SUNSET**. When the sun drops below the local horizon, all shooting activity on the range should cease.

MEMBERSHIP CARDS

There have been several incidents of members entering the range by following another vehicle through the gate. The reason is they haven't gotten their new photo proximity cards. It is the responsibility of each member to make arrangements with the association clerk to have their new cards issued. Members must have the new card in their possession at all times when on EF&GA property. I will be discussing this situation with the Board of Directors and the Chief RSO for possible remedies.

BBQ News

The annual BBQ will be held on Sunday, May 17, 2015. There will be a work party on Saturday, May 16th. The bad news is that due to the rising costs of food, (if you do your own shopping, you know what I'm saying), the price of the dinner tickets for the BBQ will have to be raised. Early bird sales (Was \$15.00) will now be \$20.00, up to April 30th. Regular price, (Was \$20.00) will now go to \$25.00, and will be sold from May 1st, up to and including the day of the BBQ

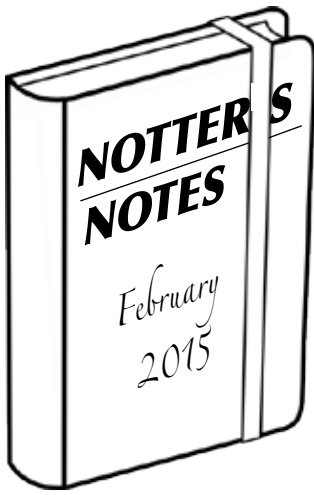

Kudos

Every now and then we have some free thinkers who come up with some pretty good ideas, so, thank you to Al Anzelone for the new Cracker Fun Shoot, Norm Porst for his NIDPA shoot and Brian Lamb for Tactical Rifle.

*****Safety Tip- Hey, Hunters and other travelers. Be sure to check the gun laws in all of the states (and countries) you may be traveling through. In some cases even the different counties in the same state have different rules. Pleading ignorance to the law usually costs more money in fines.**

Neil

PLAY SAFE, STAY SAFE

THANKS FOR DONATING TO THE JUNIOR PROGRAM

The Tactical Rifle Shooters donated \$105 at the Dec. Match. The Combat Shooters donated \$165.

HUNTING REPORT

Tim Craig was able to get out to Palomar Mountain twice during the short Band-Tailed Pigeon season

and got his limit of two birds each day. His first time hunting pigeon, and first time on Palomar. Such an easy location to get to for a quick morning hunt, and it is lovely up there. There were a lot of birds flying! Quite a difference in temperature and crowds from the Tuesday before Christmas and the Saturday afterwards.

MONTHLY ATTENDANCE WINNERS

\$25 winner - Yosi Boublil (new member just). \$400 attendance prize - Jerome Brekken would have won, if he had been present. Next month you could win \$500.

**NRA Basic Pistol Course - Saturday, Feb 28th,
8am-4pm.**

**NRA Basic Rifle Course - Friday March 20th
5pm-9pm, resuming Saturday March 21st
8am-4pm**

These NRA Basic Courses cover the fundamentals of pistol/rifle shooting. There is hands-on training throughout the course so students actually practice the subject matter learned as they progress. The students will learn about the different types of actions with instructions on loading, operating and unloading for each type of action. Also covered are the different types of sights and related topics. The course covers the fundamentals of taking a shot, determining eye dominance, the mental preparation of items to check when making a shot, and the different shooting positions and variations within each. Also covered are legal concerns involving the proper handling, use, storage and transportation of firearms. Information on selecting a firearm, the various NRA shooting venues and advanced rating criteria as well as proper cleaning equipment and procedures are covered. Although firearms and ammo for the live fire exercise are available, students are encouraged to bring their own firearms and 50 rds of ammunition for familiarization.

Upon completion of a course, students will be awarded the NRA Basic Pistol/Rifle Course Completion Certificate and associated NRA Basic Practical Rocker patch. The pistol course is also the first level of training useful for obtaining a CCW permit. Select your preferred course, or select both. To register, contact David Premetz at slixgunr@yahoo.com or register through the NRA training website link.

RANGEMASTER SOUND OFF

By: Tim Geiser – CRSO • www.crsotim@aol.com

First things first. On April 25th I have scheduled a First Aid class for RSOs. The class will be made available to the general membership on a space available basis. Anyone interested, send me an email to that effect and I will start a list.

Some of you may have noticed that I was a bit too free with the term “weapon” in the last Sound Off. In fact the Association has a policy to avoid the term in favor of “firearm” especially, when used around the youngsters.

One member actually sent me a rather long email pointing out the mistake in my article. Unfortunately, I had to agree with most of his diatribe. At the very end he mentioned that I might think he was a bit of a smart-ass. It turns out that he was right about that also. My D.I. did not do much to improve my writing skills and he wasn't too concerned about the use of the term “weapon”. When you are on the firing line, it is mandatory that you keep the muzzle of your firearm pointed down range. This point was brought home a week or two ago when a member who was firing an AR-15 style rifle experienced a failure to feed. He removed the magazine, locked open the bolt and placed the rifle muzzle down on the shooting bench and tried to examine the chamber. Seeing nothing he closed the bolt and pulled the trigger. As you might guess there was a live round in the chamber that firedthrough the table and into the concrete below. Fortunately no one was injured, but once again the old adage comes true, “always treat a firearm as though it is loaded”. To do otherwise means that you only have to be wrong once and the result could spell disaster.

The Assoc. frowns upon cleaning your firearm at the range for generally the reasons mentioned above. We do not have a safe cleaning area where your firearm can be handled behind the firing line. I am aware that when breaking in a new rifle, for example, that many shooters wish to clean after every shot. If it can be accomplished by keeping the muzzle down range and all other safety precautions observed, the procedure may be done.

Last month, President Neil Pisk mentioned that it might be a good idea to only have one type of ammo and firearm on the line at the same time. It is an excellent idea and one that I strongly recommend. Using the correct caliber cartridge for your firearm is always a “good idea” and too many calibers on the bench can easily lead to a loading mistake. The closer the calibers are, the easier it is to make that mistake. Never sacrifice safety for convenience.
