NEXT WORK PARTY IS August 20, 2017

Provisional members; this is a good chance to get in your required volunteer hours. **Followed by December 9th, 2017**

The Presidents' Corner

Well, as you all know the election for the Board of Directors is finished. I would like to take this opportunity to thank Al Anzelone for his dedicated service these past two years.

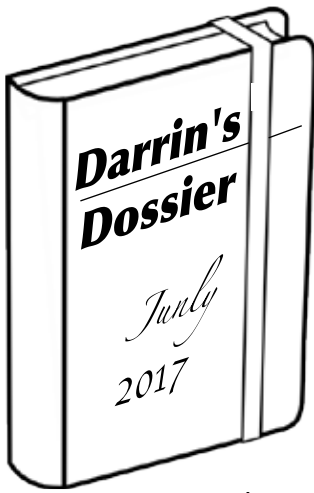

Our Junior program is most successful, and the credit belongs to all of the **volunteers** who unselfishly give their time and expertise to our member and non-member kids alike. You all will be happy to know we have the safest range in the county as well. Guess why? That's right, our **volunteer** RSO staff is always on hand to assist you and your guests with any problems you might have. With this goes thanks to CRSO's Tim Geiser, Jay Zimmet, Frank Alessio, Bud Smith and Tom Kendall. How about Ed Migdal and his enormous **volunteer** contingent? That's how we keep the range as clean as possible to make it nicer for all of you. Please say thanks to your Shoot Chairs (**volunteers**), Newsletter Editor (**volunteer**), Board of Directors (**volunteers**).

Are you getting the message? This Association was founded on **volunteerism**. Please, get up, get out and offer your services. Give one hour or ten. Whatever is comfortable for you, but do it.

PLAY SAFE, STAY SAFE

Neil Pisk

Fire Season

This past winter we had enough rain to end the drought. The rains also made our area lush and green like we have not seen in many years. Most of us think of the growth as an improvement on the environment. However, if you ask a firefighter about it and he/she will refer

to the growth as fuel for brushfires. In

May of 2017 there was a large brush fire in the Southeast area of San Diego and the media has been linking it to recreational shooters in the area. The CalFire investigation is still not complete but the media has presented their assumptions as facts. We need to remain vigilant to practice fire safety at our range so that we don't have any issues like this at our location. This means that we need to keep the property clear of brush and weeds. At the regular Work Parties (the next one is August 20th, 2017) we use weed-whackers and volunteers to clear the brush from the hillsides. If you watch the time-lapse video of the last work party (www.escondidofishandgame.com/volunteer) at the end of the video you can watch someone clearing the brush and weeds from the berm between the 100 and 150 yard ranges. (This information is not useful but I thought the video was pretty cool).

The point is that we must all be proactive about the upcoming fire season. When you are at the Range, make sure that you and your neighbors are NOT shooting with ammunition containing steel. You can test it with the magnets on all of the shooting benches. If you want to help clear brush at a Work Party you are welcome to join us on August 20th. Your cooperation and vigilance is appreciated.

Make Time to Attend a General Meeting

Bring a friend to the next General Meeting and one or both of you could win a few bucks. At the last General Meeting Gary Roberts won the \$25 door prize and graciously donated it to the Junior Marksmanship program. Had he attended the meeting, Marc Gipson would have won the \$500 Attendance Prize. The next General Meeting is 7/13/2017. If you don't show up, you can't win.

Identify This Man and WIN (7/13/2017)

If you can properly identify this loud and proud Marine, come to the June General Meeting and be ready. After the meeting a drawing will be held and the first contestant to correctly identify this man will win a box of 22LR ammunition and bragging rights. At the June General Meeting the cute young lady from the June newsletter was identified as Lucy Nelson by everyone's favorite rosarian, Ray Bucholz.

Donor List (4/13/2017)

Thanks to all who donated to the raffle table at the last General Meeting - Bud Smith, Brian Rasmussen, Dorothy Notter, Jack Barnhart, Eric Elsam, Elvio Marchi, David Chmielewsky, David Babbs, Ed Migdal, Pamela A Tucker, Ray Bucholz, Joyce and Frank Alessio

Left the Range

Richard Milford passed away on Jan 20, 2017. He became a member in 2007. Please remember him and his family in your thoughts and prayers.

High Power Shoot Cancelled (7/8/2017)

The shoot scheduled for July 8th is cancelled. The next shoot will be September 9, 2017. For more information about this fun and challenging match contact Paul Hendrikson at 760-522-4660

Mom's Creek Has Gremlins

Ray Bucholz is a fixture at the range. He has passionately cultivated many roses and black powder shooters over the years. He asked me to put a note in the newsletter to call attention to the fact that someone removed the wood signs for Mom's Creek, sanded, refurbished and refinished them and put them back for all to see. Whomever it was that did

it needs to know that we are grateful and moved by the gesture. Ray wants to identify the person(s) involved and thank him/her/them publicly.

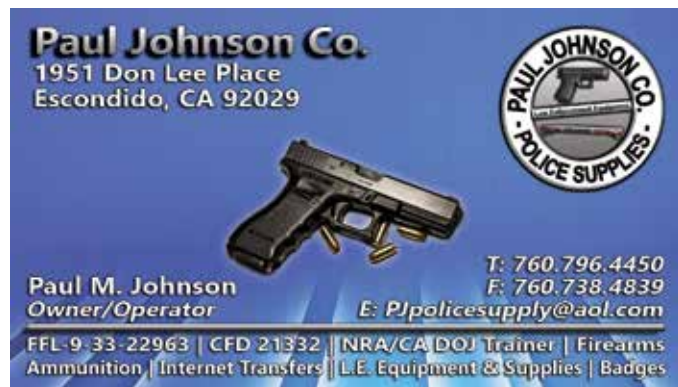

Member Donations

When we all receive our membership renewal forms, we fill out the line items that we believe are due along with optional items like NRA membership renewals, etc. There is also an option to make a donation to the Association. The following members graciously used that line item to donate and I want to thank them all publicly here and now:

Arthur Torizzo, Adalbert Theobald, David Clinton, Larry Hartwig, James Foral, Douglas Pratte, Joy Jones, John Starlin, Kevin Fleck, Thomas Jardel, David Jordan, Jerry Frazier, Robert McLennan, Wallace Cook, Michael Tombrinck, Michael Dolphin, Carl Phillips, Richard Smerud, Nicholas Fanelli, James Schaible, Harold Dewall, Ben Guthrie, Ken Hogue, Frank Holgate, Frederick Brown, Albert Barbosa, Rudy Vilkutaitis, Randall Gompper, William Getz, Paul Kropp, Bruce Stirling, Jack Bose, Lisa Schall, Daryl Smith, Brian Fletcher, Steven Tye, Charles Fowler, John Hetzler, Don Hamblen, Asa Gregory, Mark Girard, Dale Leedom, James Wong, Victor Burns

Junior Muzzle Loading (7/9/2017)

Our next JR. Muzzle Loading shoot will be held on Sunday, July 9th. Sign ups will begin on July 1st, all you have to do is email Ren Everett at everettju1@cox.net and give him your first and last name for the shoot. Come on out and learn about and shoot the same kinds of rifles that were shot in the 1700 and 1800's. We provide all the necessary equipment.

RANGEMASTER SOUND OFF

By: Tim Geiser – CRSO • crsoTim@aol.com

Keept the date! RMAD is a day set aside by our organization to honor and thank the members who volunteer their time to become RSOs for our range. The day starts with games of skill such as tomahawk throwing and archery and ends with a great lunch and raffle. This year the event will be held on Sunday, July 30th. Invitations will be sent out and it is important to RSVP so that I can be certain that there is enough lunch to go around.

Summer hours are now in effect. This means that the evening RSO shift is more important than ever. RSOs that have a hard time making a day shift can now help us provide sufficient coverage by coming up for a later one.

All of the DUD buckets have been emptied so there is plenty of room to get rid of bad ammo. Having said that, be sure to place ammo in the clearly marked RED containers. Cigars and cigarettes only go into the green clearly marked containers. All too often I am finding live ammo in the green containers and vice versa. That is a big **NO NO!** It clearly is a potentially dangerous situation and there is no excuse for this kind of negligence. Strangely enough I also found a large amount of live .223cal rifle ammo in the DUD bucket on the Trap Range. I find it strange that someone went from a rifle range to the trap range to get rid of what appeared to be perfectly good rifle ammunition.

With the warmer weather comes an increase in fire danger. Always keep an eye out for anything that may create a spark. Grasses can flare up unbelievably fast. Water hoses are located at each range and every member should familiarize his/herself with their operation. All the hoses will stretch all the way to the impact area if necessary. Steel core ammunition is banned also. I know that it is cheaper, but there is always a danger of sparks and RSO will be particularly vigilant in using their magnets. Any steel core ammo must be removed from the range immediately.

New members will soon be added to our membership rolls which also mean that periodically we will be conducting **Safety Walks**. Typically, these walks are conducted late afternoon on the third Thursday of the month. If you are shooting that day, please be aware that there may be a 10-15 minute interruption at each range while a group presentation is being made. We make an effort to make as little disruption as possible.

As always:

STAY SAFE, SHOOT STRAIGHT

Ren-dez-vous: Meaning a planned meeting between two or more parties at a predetermined place and time. It had much greater meaning to the trappers and traders of the late 18th and early 19th centuries. A friendly competition was held recently at a gathering of local mountain men and women on June 10/11 at EFGA. Exhibiting an extensive skill set for the bystanders, contests included hawk and knife throwing, archery, a pistol walk and a rifle course. Smoothbore trade guns were used as well as a .69 Brown Bess musket.

Overall aggregate winner goes to Dan Hannah.

Amongst the spectators was an unloved, unwanted non-member, a protected species, the gopher. He was heard to say, "What's all the noise? I can't get any peaceful digging done with the booming, blasting and missile throwing? I've put more holes in this range than any of you shooters!", as he left for quieter digs.

IT ALL STARTS HERE...

How to place a classified ad in the newsletter

Please help to keep the classified section easy to read and well organized. There is no cost as long as you are an EF&GA member in good standing. Classified ads run for ONE newsletter (one month). If you want to repeat an ad for another month (with price adjustments, etc...) simply re-submit the ad request via e-mail.

Please submit requests for classified ads via email to newsletter@escondidofishandgame.com and be sure to double-check for spelling and grammar errors.

It may sound obvious but requests for classifieds are frequently received with not enough information to be useful to a reader. **There are 5 main components of a classified ad:**

Category – Most classifieds fall into one of 3 categories, 'For Sale', 'Wanted', or 'Lost & Found'.

Subject/Title – This will appear in bold in the advertisement. This should be short (2 or 3 words) and concise.

Description – This is the body of the advertisement and can be a few sentences but not more than a paragraph. Abbreviations appear cryptic and are not recommended unless they are well known acronyms.

Price – A specific dollar amount as well as qualifiers give the reader important information. For example, "\$600 or Best Offer, Buyer pays DROS, Will consider trades"

Contact Info – This should be a name AND a phone number (including area code) and/or an e-mail address.

DEADLINES!!

Items For the Next Newsletter are Due

Tuesday, July 18th

Any and all requests for items to appear in the monthly bulletin should be routed through

JUNIOR CORNER

By Patrick Russ

RULES TO LIVE BY

1. **Treat** every firearm as if it were loaded
2. **Never** point your firearm at anything you don't intend to shoot
3. **Keep** your finger straight and off the trigger until you intend to fire
4. **Know** your target and the surroundings

The major fire season is upon us. With all of the rains that we had this winter, everything has grown tall and lush. All of those pretty fields of grass and flowers are quickly turning into fields of potentially dangerous fuel for fires. If you haven't done so yet, it's time clear a defensible area around your homes and businesses. The range is no exception.

On Sunday June 4th, we had our monthly Jr Marksmanship program working party. We decided that due to the high fire danger that it would be a good idea to get rid of all the dead grass on the berm between the 100yd and 150 yd ranges. With the help of some dedicated few, we were able to get rid of about 80% of the dead grass and brush on the berm, as well as, the back side of the 150yd impact area. While we did not get everything, we believe that we made a good dent in what needs to be done. This effort will continue throughout the summer. A special thanks to Austin Cote (13 yrs old), despite the heat and dirty working conditions he willingly and enthusiastically worked hard, rivaling many of the adults that were out there that day. His efforts not only helped keep the range safe from fire, but showed that he is a perfect example the kind if young adults that are part of the Jr program. I would also like to thank Paul McFadden, a new member that was doing his volunteer time. He did a great job, singlehandedly clearing much of the hillside with the weed eater.

The Jr Marksmanship program does a monthly working party on the 1st Sunday of each month. Doing these working parties we typically do things that help support the Jr program. This includes cleaning and organizing gear, separating brass and lead mining. Anyone and everyone are welcome to join us. We have even had some help from folks that are not even members or even have kids in the program. They just wanted to be a part of such an amazing program.

***On behalf of the Jr Marksmanship program, I would like to wish everyone a happy and safe 4th of July.
God Bless the United States, 241 years old and getting better everyday!***

May is gone and the second of our three yearly Super Short Confidence Course shoots has been completed. For this event we welcomed two first time muzzle loading silhouette competitors, Elvio Marchi and Robert Reid. Thanks guys for coming out and giving it a try.

New this year we added a Trade Gun class to our Super Short Course for the first time. Three grizzled mountain men showed up to participate. It ended up in a tense two round shoot-off for first place. The Marines won this one. Trade Gun will be offered again at the September contest.

For July we will be shooting our regular Medium Range Course at 75, 100, and 125 yards. On June 10th and 11th we held our annual Guejito Rendevous. This competition allows for a two day "walk-thru" event with Rifle and Pistol on one day and Trade Gun "walk-thru" on the second day. Ten steel targets were placed randomly from 25 to 125 yards and competitors shoot two balls at each target. One point per hit, 20 points possible on each walk. All loading is from a pouch. Just for fun, we also have a ten throw Knife and Hawk competition. One point per "stick". Congratulations to Dan Hannah, as this year's overall winner.

Does Black Powder Shooting sound like it might be fun? Do you know what you need to get started? Here is a short primer to get started. (Note that this is MY opinion and your mileage may vary). First of all, decide what category you want to shoot in. We offer Open Rifle, Primitive Rifle, and BP Cartridge Rifle. Currently the difference between Open Rifle and Primitive Rifle are the sights and how you load. In Open Rifle you can load from the bench and use either fixed, adjustable, or aperture iron sights. In Primitive Rifle you have to load from the pouch and can only use fixed non-adjustable sights. In BP Cartridge Rifle you load at the line and can use any fixed, adjustable, or aperture sights. For this monologue, lets say you want to shoot open rifle.

To start with you need a rifle. .45, .50, or .54 caliber rifle will work. A .32 or .36 rifle can be really accurate, but the ball lacks the weight to knock over silhouettes at range. A .58 or larger rifle can be pretty tiring for those not adapted to the recoil. Almost any BP replica rifle will work. A slow twist barrel of one turn in 56, 66, or 70 is preferred. For long range work. A one turn in 48 rifle will work out to about 100 yards but can accuracy can suffer with higher powder charges. Flintlock or Percussion is a personal preference. For me percussion is easier. You will need a "wiping rod" to clean between shots or "as needed" by preference. In open class you can also use it to seat balls during the loading process. (Your under barrel ramrod will work but a slightly longer bench rod is easier), You will need pure lead round balls, cotton pillow ticking patches, patch lube of your choice, percussion caps or 4F pan primer. You will need a powder horn or flask, and a powder measure. An adjustable brass powder measure makes your life easier and they last forever. (Never pour powder directly from the flask/horn into the barrel). You will also need a can of 2F or 3F black powder. A ball starter in the proper caliber with a wide head can save bruising your hands when you start the ball down the barrel. Its always a good idea to keep a nipple wrench and/or a vent pick handy in case you have a failure to fire and need to clean things out on the line. If your choice is a flintlock you might want to keep a spare flint handy as well as the proper tool to change it on your rifle. Also handy to have is a U shaped padded piece of wood to C clamp to the loading bench, This will allow you to lean your rifle against the bench when you load. A scrap piece of carpet to rest the butt of the rifle on the ground saves some wear and tear. (You can find them on the range from time to time when somebody else forgets it's there and leaves it). If you do not use pre-cut patches and prefer to cut at the barrel you will need a small patch knife. Other odds and ends that are useful include a bench rag, (BP is messy), a brass percussion capper, and/or a small priming horn for flintlocks. (Using a small priming horn of 4F powder and a nipple wrench you can usually clear a dry ball in a percussion rifle fairly quickly also). Alternatively a CO2 ball clearing device can be used to force a ball out of the barrel on a percussion or flintlock rifle. Finally, the last thing you need is a positive attitude and a willingness to learn. Everything on a BP rifle is a variable. How you combine the variables frequently results in how accurate your rifle is, and how well you do. Next month we can talk about accuracy and working up a load for your rifle.

Finally, a typical BP conversation on the range during the June rendezvous. Patrick Watson announced: "I have wrinkly balls". Herr Doktor Niel Pisk conferred with Herr Doktor Craig Rogers and offered this medical opinion. "Turn the thermostat up on your lead smelter until your balls turn Frosty, then, back it off a little bit". Then there was a comment about taking two aspirin, etc, etc, etc.

Thank you,

Garth Warner

TRAP CORNER

5th Saturday Fun Shoot (7/29/2017)

Come out and join us for a challenging and fun series of shotgun events. The first round will be 16-Yard Trap. The second round will be Trap Doubles and the third round will be 5-Stand. Sign-ups start at 8:00 AM and shooting begins at 9:00 AM. The cost is \$25.00 for EF&GA members and \$30 for guests. Lunch is included. For more information contact

Darrin Eaton at:
deaton@escondidofishandgame.com

InterClub Trap Competition (8/26/2017)

Don't miss the InterClub match when we get to host the event at our range. Shoot two rounds of from 16 yards and two more rounds of 25 at Individual Handicap (distance calculated by your score in the first 2 rounds). The cost is \$30.00 and it includes lunch. Members and Guests ARE WELCOME. Sign-ins start at 8:00 AM and Shooting starts 9:00 AM. For more information contact Darrin Eaton at:

NRA Basic Shotgun Class (9/24/2017)

This class covers firearm safety and basic skills of Shotgunning. It is also designed to train the student on the proper skills required to hit a moving target. The NRA Certified Shotgun Course teaches stance, gun ready position, swing to target, trigger pull and follow through. The class consists of classroom exercises and hands-on instruction including live fire exercise through which students will learn and demonstrate safe and proper shotgun shooting procedures and technique. Hands on range time will include techniques required for shooting moving targets-(Trap). Upon successful class completion students will receive the NRA Basic Practical Rocker and an NRA Basic Shotgun Certificate. Classes are limited to 10 Students.
