The Presidents' Corner

BBQ News

The annual BBQ will be held on Sunday, May 17, 2015. There will be a work party on Saturday, May 16th. The range will be closed from sunset Friday until 7am Monday. The bad news is that due to the rising costs of food, (if you do your own shopping, you know what I'm saying), the price of the dinner tickets for the BBQ will have to be raised. Early bird sales (Was \$15.00) will now be \$20.00, up to April 30th. Regular price, (Was \$20.00) will now go to \$25.00, and will be sold from May 1st, up to and including the day of the BBQ. Just think though, where else can you enjoy a fantastic meal, great shooting and fishing events, a huge raffle and silent auction, (with fabulous prizes) and, most of all, the great camaraderie of folks just like you.

Lead Miners

We might be seeing the lead miners on property very soon. Please be respectful of their needs. They work at night so that you can shoot during the day.

Website

Hey, just a reminder. Always check the website before you leave for the range. Sometimes there are unplanned closures and the only notification is the website.

Kudos

Many thanks to CRSO's Tim Geiser, Jay Zimmet and their RSO team. These are the folks in the red shirt and cap. When you are up at the range, say thanks to these fine volunteers.

And how about the Junior's team. Frank Alessio, Ren Everett, Kurt Nelson, Patrick Russ, Patrick Watson, Steve Sparks, Mike Marks and Curt Summers, the ladies in the kitchen and Chef Jay Zimmet. They make it safe and fun for our kids. That's right, they are volunteers also.

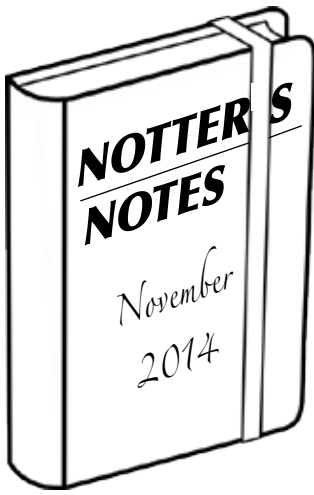

Thanks to all who came up and volunteered their time to help with the new landscape plan. Looks great!!

*****Safety Tip- Remember the basic firearms safety rules. Always point the muzzle in a safe direction, Keep your finger off the trigger until ready to shoot. All fired rounds must impact the backstop.**

PLAY SAFE, STAY SAFE

*** We have installed video cameras in various locations around the property. These cameras are for safety and security and may at times be reviewed by authorized staff personnel.***

a skill and then passing that knowledge on to others. The next match will be on November 16th, sign ups will start on November 4th.

RANGEMASTER SOUND OFF

By: Tim Geiser – CRSO • www.crsotim@aol.com

Periodically, we hold a class for new RSOs who wish to upgrade to NRA Certification. We are currently planning to hold a class on December 20th. If you wish to attend the class please let me know, either verbally or via email as early as possible. We need to order sufficient training materials.

If you are a new RSO and have not received your badge yet, check in the small RSO box by the club house door first and then let me know. A name falls through the cracks once in a while, but I will get one for you.

Here is a tip. You all know that steel core ammo is not allowed to be used on our range for various and sundry reasons. However, I have found that military 30.06 rounds packaged in bandoliers should be checked by removing the round from the clip first. The clip itself may make the rounds appear to be unusable, but the round itself may, in fact, be OK to use.

As I have said before, **Range Safety entails much more than safe shooting.** Hygiene can also be important in so far as handling lead bullets. Lead is a rather toxic heavy metal when ingested. It can affect the nervous system and other bodily functions. Tetraethyl lead was put into gasoline until the late 1960s and lead was used to harden paint until the 1970s. Both lead to lead poisonings especially in our inner cities. Lead makes paint taste sweet and many children would eat the paint which often meant vastly elevated levels of lead in their bloodstreams. Since children are at highest risk for the effects of lead poisoning, it is important to note that we normally use a lot of .22 caliber rounds in our youth shooting programs. Lead from these rounds can easily wind up on the children's hands. If proper hygiene is observed, by insisting that hands be washed before eating, any risk can be reduced to virtually zero.

The EPA recently shut down the last lead producer in the USA using the lead poisoning arguments. That means we are now dependent on foreign sources to supply lead which has many commercial uses other than bullets. None the less don't think for a minute that shutting down these producers is anything more than a back door attempt to make guns and the shooting sports more expensive than ever.

EF&GA mines the lead out of the impact area every year so that much of it can be reused. You re-loaders might want to keep that in mind since the cost of buying shot is going to go nowhere but up!

In the meantime...
