Followed by: February 19, 2017

The Presidents' Corner

New members

Welcome to all of our new members. Your Board of Directors is wishing the best of luck with your membership in our association and looking forward to many years of serving each other to maintain a safe and fun environment. Please plan ahead and get your six hour volunteer time done as soon as possible.

Policy Addition

The Board of Directors has instituted a "Close and lock the door behind you" policy. If you opened the door, you are responsible for it's immediate closure and locking when you exit. Do not leave it open for someone you think might be coming in after you. Your cooperation is greatly appreciated.

Scholarship Award Winners

Congratulations to: Kim and Kayla Everett, Olivia Fergusson and Chase Larsen on receiving this years scholarship awards. Best of luck with your continuing education.

Purchase Items

We have T-Shirts, OBI's, Patches and Decals for sale. Please contact Bud Smith, Bill Williams or Tom Kendall to purchase any of these items.

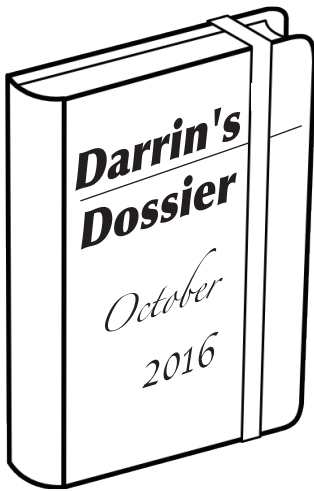

Kudos

I would like to take this time to thank the members of the Board of Directors. For those of you who have never served on the BOD, you have no idea how many hours of volunteer time, on and off property, these dedicated folks put in. They make my life simpler. Thank you all.

*****Safety Tip- Rattlesnakes have been seen on the range. Please be very careful where you put your hands and feet, especially around wood piles and straw bales. Stay on well traveled paths.**

Neil Pisk

PLAY SAFE, STAY SAFE

New Web Site

The Board of Directors appointed me to chair the Web Site Committee and we came up with a plan to design a new web site. When we met and discussed the features

that we wanted to see on the new web site. After some discussion and a laundry list of wants and wishes, I had a tall order to fill. Then I went to work and after some trial and error and some consultation with the rest of the committee we now have a new web site at www.escondidofishandgame.com.

The new site is designed to be place for members and guests alike to get information about what we do and how to participate in our events. It is intentionally designed to be easy to find out about our events, our training, and our Junior Marksmanship programs. It is also set up to be usable from a Windows PC, an Apple, an iPad or a smartphone (Android or iPhone work equally as well). There is also a link on the Home page to give you driving directions to the Range so that our guests can find their way up there more easily.

The Contacts page has been divided into categories (Shoot Chairs, Junior Marksmanship, Instructors, and Board of Directors). If you are listed and your phone number or e-mail address is incorrect, please send me an e-mail and I will get it corrected ASAP.

As I get more description information from the shoot chairs and instructors, there will be more content. I also plan to add photos and videos as I receive them (with proper legal documentation).

JR. CORNER

1. **Treat** every firearm as if it were loaded.
2. **Never** point your firearm at anything you don't intend to shoot
3. **Keep** your finger straight and off the trigger until you intend to fire
4. **Keep** your firearm on safe until you intend to fire.

Escondido Fish and Game Association's Jr Marksmanship program would like to thank everyone that contributed to the success of the fundraiser breakfast at Applebee's in Escondido. Special thanks to Norm Porst for heading the effort, as well as all the volunteers that showed up to help with clearing the dishes and greeting the guests.

These volunteers include: Dotty Porst, Grace Bresnahan, Michael Bresnahan, Laurie Bresnahan, James Brexmeier, Bryce Brexmeier, Kevin McCabe, Ren Everett, Patrick Watson, Julie Olmstead, Patrick Russ and Frank Alessio. The breakfast was a huge success that raised over \$900 for the Jr Marksmanship Program.

Junior Marksmanship Program

Joint Forces Working Party (10/2/2016)

We will be having a working party on Sunday October 2nd, 12:00 to sunset. The mission of this working party will be to clean up some of the gear that is used by the program as well as do some much needed work on the pistol range. In attendance will be cadets from the Civil Air Patrol, Sea Cadets and the Boy Scouts. Everyone is welcome. Please come join us as we show our gratitude to Escondido Fish and Game Association for supporting the Jr programs.

Jr. Coaching Values

By James Braxmeyer (17 years old)

In my opinion, the Jr. Programs here at Escondido Fish and Game Association are one of our biggest assets to the younger generation. The Jr. Programs are what brought my brother and me to this range in the first place. Now that we've been coming to this range for almost two years, we see new shooters each and every time we attend a youth shoot. This is imperative so that

Junior Corner Continued From Page 4

there is a new generation of shooters that understand and can pass on firearm knowledge and safety. However, the Jr. Program doesn't just teach how to operate a firearm properly and safely; it also teaches leadership and life skills.

Being one of the Jr. Coaches, has also taught me the importance of dependability, by arriving on time as people are relying on us to set up the shoot, which creates a good experience for everyone. By volunteering early on Sundays, when we could be sleeping in, teaches us selflessness, loyalty and commitment. We need initiative when we arrive at the shoot or it may not be prepared on time. Personally, I love to shoot, so there's always enthusiasm when I'm teaching something I enjoy. When partaking in any activity at the range we need to have awareness and good judgement of the surroundings at all times, which relates to safety and carries over into life situations. Decisiveness is also a good quality to have, if you're always changing what you say and do it can confuse everyone around you. Throughout coaching and learning it is imperative to have perseverance to instruct and learn. Of course all of these are necessary to develop the initiative and mindsets to not only carry on the Jr. program but to strive to do the best we can at making it better by giving everyone the chance to learn how to properly and safely use a firearm. By making the decision to join as a Jr. Coach, I know that my fellow Jr. Coaches and I feel an appreciation to the Jr. Program and find joy in helping others, as well as a comradery and loyalty to our fellow Jr. and Sr. Coaches. A culmination of all of these life skills makes for outstanding qualities in an individual and an amazing range.

RANGEMASTER SOUND OFF

By: Tim Geiser – CRSO • crsoTim@aol.com

You may have noticed that every once in a while we have managed to have a bit of a glitch in the range schedule. These things do happen, but they are hard to correct since the bulletin is only published once a month. It can be especially difficult for the duty RSO to know, at times, who should and who should not be permitted on the range. One solution has been suggested and I think it to be a good one. My plan is to establish a Bulletin Board within the meeting room with notices and updates. It will be placed close to the RSO Boxes near the door and will have any updates that a Duty RSO needs to be aware of. I suggest that all RSOs check it out as soon as they report for duty on any given day. Of course the general membership is always welcome to check it out also.

I am always looking for suggestions to improved communications between membership and our RSOs. Please do not be shy about letting me know about improvements that could be made. To the best of my knowledge no one has ever been booted out of the Association for simply making a suggestion! Often as not they are valid and useful.

Last month I asked a question about the number of separate ranges at EF&GA. No one got it right! As it turns out we have a range within the meeting room that is laid out specifically for air rifle/pistols. Next time you are at the range check it out.

We have been a bit shy of short sleeve Bob Allen shirts due to slow delivery. With hot weather coming to an end the wait is over! At only \$25.00 ea. you can't beat the price with a stick! I also have sweatshirts, long sleeve Bob Allen's and all weather jackets that are amazingly versatile. OK so much for the sales pitch.

***A quick note to Members and RSOs. The Smith & Wesson 15-22 in various configurations has been reported to exhibit a number of problems with extractors and a possible tendency to go full automatic. Anyone who owns one of these firearms that exhibit any problems should immediately contact the manufacturer to have it resolved. The full automatic condition can be particularly dangerous so please be aware. These firearms have low or no recoil and can be fun to shoot, but as they say forewarned is forearmed. Please do not take any chances.

We had a nice breakfast meeting at Applebee's on Saturday September 17th. I am not certain of the final turnout, but I had good food and good comradery. Since the proceeds go to our youth programs, I am sure that each and every one of you attended. Right?

Make Time to Attend a General Meeting

Bring a friend to the next General Meeting and one or both of you could win a few bucks. At the last meeting Pam Tucker won the \$25 door prize. Had he attended the meeting, Michael Dolphin would have won the \$500 Attendance Prize. The next General Meeting is 10/13/2016. If you don't show up, you can't win.

Donor List (8/11/2016)

Thanks to all who donated to the raffle table at the last General Meeting – JW Bailey, Al “The Computer Guy” Anzelone, Lonnie Fowley, Brian Rasmussen, Joyce and Frank Alessio, LT Reynolds, Julie Pendzich, Jim Rolfes, Alan Chmielewski, Pamela Tucker, Ray Bucholz, Richard Sorcinilli, Thomas Kendall, Neil Pisk, Joanne Anderson, Leonard Hodges, Smoldering Bud Smith

Coaches Course (10/16/2016)

There will be a coaches course on October 16th from 7:00 am until approximately 4:00 pm. Come on out and learn how to coach kids and adults in rifle, pistol, and archery. Learn some new things and remember some things that you have forgotten. Contact Ren Everett at everettju1@cox.net

Junior Muzzle Loading (3/12/2017)

Join us for the latest addition to our Junior Marksmanship Program when we add black powder to mix. Neil Pisk and Ren Everett have joined forces to pass on the skills and traditions of shooting the rifles that our forefathers used over 100 years ago. At the last Junior Rifle event they demonstrated the equipment and let the kids (young and old) try it out and there was a lot of positive response. For more information contact Neil Pisk or Ren Everett (contact info on page 1).

TRAP CORNER

5th Saturday Shotgun Fun Shoot (10/29/2016)

IT'S COMING!!! Saturday October 29 2016 from 8:00 to 1:00 is our next 5th Saturday Shotgun Fun Shoot. This challenging event will be held in addition to our normally scheduled Trap and Pot Shoot events to occur later in the afternoon (No Trap Card Shoot will be held). Be ready for Single Trap (16 yard), Wobble singles, Fixed Doubles (26 shots), and Handicap singles. 101 shots total, so bring an extra shot shell. Lunch and beverages will be provided for shooters. Sign-ups start at 8:00 a.m., shooting to follow as squads are formed. Cost is \$30.00 for EFGA members, 35.00 for non-members. There will be divisions established based on 16 yd. scores. “Pots” will be split between each division first and second place finishers based on total scores in the four disciplines. Contact Mark Eller at 760-504-2438 or markeller150@gmail.com

Inter-Club Results (8/27/2016)

EF&GA hosted our annual five club Inter-Club Trap event on August 27. This year it was won by Rich Davis of Vado Del Rio Skeet and Trap, with Kathy Cortopassi (EF&GA) and Isaac Smith (EF&GA) winning the Women's and Junior's divisions. 42 shooters was a great showing. EFGA was edged out by Lemon Grove Rod & Gun Club by .6 of a point for the club win. Thanks for all of our members who competed, a great time was had by all. Special Thanks to Barbara and Bob Griffith for their work chairing the event, and to all the volunteers who helped make it go smoothly and safely!

Lakeside Sportsman's Club Inter-Club Event (10/22/2016)

The next Inter-Club Trap Shoot event will be held at Lakeside Sportsman's Club Saturday 10/22 in Boulevard, east of San Diego. \$30.00 for 100 targets, 50 @ 16 yds., 50 @ handicap. Lunch is included. We had a great showing of 16 EFGA members for our hosted event in August that contributed to our strong second place finish. Let's keep that going! Check with Mark Eller or Darrin Eaton for carpooling or caravan info.

Ginger Bass Memorial Dodge City Trap Shoot Event (10/8/2016)

Lemon Grove Rod & Gun Club will host their Seventh Annual Ginger Bass Trap Shooting event Saturday October 8 with Registration at 8:00 a.m. The interesting and unusual format includes 50 rounds at 16 yards, lunch break, and

Polymer Ammunition

By *Eric Jamois*

The past few months have seen some interesting developments in terms of new ammunition technology with the notable appearance of polymer bullets. An October 2015 article in *American Rifleman* provided some details on the Polycase ARX ammunition. But what is the big deal about this new technology? Is this really interesting? Is it going to make any difference in the shooter community?

I ventured to explore this theme further in relationship with Ecomass Technologies, a company involved in the manufacturing of polymer projectiles. As described in the above referenced article, the projectiles are composed of copper powder and a nylon-like polymer matrix. They are produced through an injection molding process similar to that of a LEGO block. The initial driver in manufacturing such projectiles was to produce a lead-free bullet as mandated in certain military and law enforcement applications. As a matter of fact, the U.S. Army replaced its green-tipped 5.56x45 mm NATO, M855 standard ball cartridge in June 2010 with the new lead-free, or "green," M855A1 cartridge.

The Physics:

Copper has a density of 8.96 compared to 11.3 for lead and when copper powder is used in combination with polymers to yield material suitable for projectiles, the end density is around 6. This very significant difference in density results in light projectiles which are dimensionally large in relationship to their weight in grains. A polymer projectile for 9mm Luger weighs in the range of 80 to 90 grains compared to 115 to 124 grains for a lead bullet. However, the polymer projectile is about 30% larger in size.

When considering these projectiles for reloading, an immediate challenge appears for calibers such as 9mm where case capacity is limited. Considering the maximum OAL of a 9mm Luger, over 50% of the case capacity is occupied by the bullet compared to ca. 30% for a conventional lead projectile. The prob-

lem is compounded by the fact that larger amounts of powder are necessary to provide sufficient power for cycling firearms in their stock configuration. With such "off the charts" parameters, manufacturers have generally not offered polymer bullets as components and focused on factory or professionally reloaded ammunition. I am thankful to Ecomass for keeping an open mind and for allowing me to experiment with their projectiles.

The Performance:

A simple statement could just be "it feels different". Other comments from experienced shooters have been "Wow, I cannot believe this". Because of the reduced bullet weight and possibly other parameters related to the material, polymer ammunition shoots extremely soft. With such a reduction in felt recoil, polymer ammunition is likely to gain high popularity with recoil sensitive shooters such as junior and less experienced shooters. But there is more. Due to their composition, these polymer bullets are frangible so they will disintegrate upon impact on a hard object. This is a very desirable behavior when shooting at steel plates as it eliminates the danger of bullet fragments bouncing back and hitting shooters and bystanders.

A considerable amount of work was devoted to developing loads for Ecomass projectiles. Our efforts focused on the 9mm Luger using the 89 grain Ecomass bullet. Upon thorough analysis, proper choice of powders and careful practice, we were able to develop accurate, reliable and practical training loads with velocities in the 1,300 fps range. For experienced shooters who want to race, polymer ammunition is perfectly setup to provide fast recovery between shots. Taking a Springfield Armory 1911 in 9mm with a good trigger and optics, one can turn a \$1,000 production pistol into a \$4,000 race gun. Going beyond felt recoil, polymer ammunition provides excellent accuracy, minimal barrel wear and extremely clean functioning.

The Limitations:

The low recoil is obtained as a trade-off of momentum for energy resulting in relatively low power

How to place a classified ad in the newsletter

Please help to keep the classified section easy to read and well organized. There is no cost as long as you are an EF&GA member in good standing. Classified ads run for ONE newsletter (one month). If you want to repeat an ad for another month (with price adjustments, etc...) simply re-submit the ad request via e-mail.

Please submit requests for classified ads via email to newsletter@escondidofishandgame.com and be sure to double-check for spelling and grammar errors.

It may sound obvious but requests for classifieds are frequently received with not enough information to be useful to a reader. **There are 5 main components of a classified ad:**

Category – Most classifieds fall into one of 3 categories, 'For Sale', 'Wanted', or 'Lost & Found'.

Subject/Title – This will appear in bold in the advertisement. This should be short (2 or 3 words) and concise.

Description – This is the body of the advertisement and can be a few sentences but not more than a paragraph. Abbreviations appear cryptic and are not recommended unless they are well known acronyms.

Price – A specific dollar amount as well as qualifiers give the reader important information. For example, "\$600 or Best Offer, Buyer pays DROS, Will consider trades"

Contact Info – This should be a name AND a phone number (including area code) and/or an e-mail address.

DEADLINES!!

Items For the August Bulletin Due

Sunday, September 18th

Any and all requests for items to appear in the monthly bulletin should be routed through

Darrin Eaton - 760-630-8339

Polymer Ammunition continued from page 9

factors. Certain competitions mandate power factors for various divisions and polymer ammunition is likely to fall short of the requirements. The relatively powerful Polycase Inceptor RNP advertises 1,425 fps for an 84 grain bullet resulting in a power factor just under 120. Our reloads were typically in the 115 range.

The Economics:

Because copper is significantly more expensive than lead, the manufacturing cost of polymer projectiles is inherently more expensive their lead-based counterpart. However, given some of the advantages detailed above, it is quite possible that polymer projectiles gain in popularity. They may also play a significant part in the transition toward "green" materials which are already mandated for water fowls and other hunting applications.

I am thankful to all my friends who took the time and shared their equipment (chronograph, guns, benchmark ammunition and more) towards this learning experience. They also lent their hands to provide extremely valuable feedback in the course of shooting a large panel of ammunition. I am also thankful to Ecomass Technologies for providing several hundred projectiles for load development and testing. I strongly encourage shooters of all skill levels to try polymer projectiles and draw their own conclusions.
